

INDICTMENTS IN MARSHALL.

Prominent Farmers Charged With Night Riding And Murder.

RESULTS OF MURDEROUS RAIDS ON BIRMINGHAM.

Paducah, Ky., April 4.—Sheriff Peto Eley and his son, Will Eley, one of his deputies, left Benton early this morning for the Birmingham section of Marshall county to arrest the eleven men indicted by the special grand jury, which adjourned last Wednesday.

The names of the eleven men have been given out and are as follows:

Dr. John Champion, Sam Colley, Fred Holden, Amos Stringer, Wallace Stringer, Louis Chaudet, Nick Tarry, Tom McClain, Burnett Phelps, Nick Terry, R. M. McAtee.

They are some of the most prominent farmers in Marshall county, and are alleged to have been members of the party of night riders that visited Birmingham a few weeks ago and shot into the negro cabins and whipped several negroes. John Scruggs, an aged darky, was so badly wounded that he died the following day. His grandchild, a small baby, also was shot and died.

The bonds vary from \$1,000 to \$2,000.

Dr. Champion is one of the most prominent physicians in Marshall county.

It is understood that all the men will deny the charges. They will probably attempt to prove an alibi. The indictment of the men has one good effect in Lyon and Marshall counties, for there has not been a single case of barn burning or whipping since.

Barn Burned.

Augusta, Ky., April 6.—Tonight at 11:30 the tobacco barn of S. W. McKibben, on the outskirts of Augusta, was destroyed by fire. The barn was full of tobacco grown by Caleb Atherton, who came here from Ohio last year and has refused to sign his tobacco to the Equity society, but who signed to cut out the 1908 crop. A short time after the fire was discovered a band of twenty-five men rode through Augusta firing guns and warning citizens to remain indoors. McKibben is the father of John D. McKibben, who has been buying tobacco at Madison, Ind., and who had trouble with day riders here about the first of the year. There were about ten thousand pounds of tobacco in the barn.

Thieves At Work.

Thieves were at work at the L. & N. Station at Evansville Sunday night. Some one crawled over a transom and gained entrance to the dispatchers' office where they stole a small clock, that because of its delicate mechanism was valued at \$50. A coat was stolen from the ticket office down stairs.

The switch board in the Home Telephone Co's exchange at Elkton burned there Friday night, causing a loss of \$300 covered by insurance. Several men passing by saw the light and awakened the operator. He had no sooner arisen than the lamp standing by his bed exploded.

SECRETARY TAFT AT LOUISVILLE

Mammoth Meeting Tomorrow Afternoon and Evening Reception and Speech.

EVERY COUNTY AND DISTRICT IN KENTUCKY WILL BE THERE.

When Secretary of War, William H. Taft plants his feet on Kentucky soil tomorrow, the celebrated smile of the presidential candidate will be broader than usual for a notable reception will be given in his honor. All day he will be toasted and dined and every Fairbanks man in Kentucky will be urged to come and take a good look at the "big un," sized him up, and get into line with Ohio.

Secretary Taft will arrive in Louisville Friday afternoon about 2:30 o'clock. He will be the guest of William Marshall Bullitt at his home on Fourth avenue. Immediately upon his arrival he will be given orders to "clean up" as rapidly as possible and will be driven to the Seelbach, where a big, public reception will be given him. Members of the committee say that "all Republicans and independent voters" will be urged to pay their respects to the Ohio man. Police arrangements will be so made that every voter who desires may shake the hand of the Secretary.

Col. Morris B. Belknap, the president of the Taft Club of Louisville, will preside over the meeting, which will be held in Hopkins Theatre at 8 p. m., and will introduce the Secretary. About 500 vice-presidents will be named for the meeting and the stage will be filled with the Taft leaders in Louisville and in the State.

"It will be a gathering of the Taft claims," said a member of the committee on arrangements. "We are sending letters throughout the State urging Republicans to come and hear the real gospel as preached by the next President. Every county and every district will be represented."

The committees in charge of the reception are:

Hall, Decoration and Music—Allan Ramsey, Chairman; S. B. Richardson, H. F. Monroe, Dr. Bohannon and Henry Bennett. Reception—William Marshall Bullitt, chairman; Dr. Thomas H. Baker, H. T. McCulloch, John H. Brand, H. B. Reager and Richard Ernst.

Finance—Col. Samuel H. Stone, chairman; C. P. Billard, Dr. Louis Ryans, C. C. Mengel, Herman Volkerding, David Fairleigh, J. Ross Todd and C. C. Stoll.

Invitations—H. H. McCulloch, chairman; Mark Gabhart and Dr. T. H. Baker.

GOV. JOHNSON'S STAY

Will be in Louisville from 2:45 a. m. to 7:45 p. m. April 13th.

Gov. John A. Johnson and his staff, of Minnesota, will arrive in Louisville at 2:45 a. m. on the morning of April 13, from the Shiloh, Tenn., battlefield and will remain there until 7:45 o'clock that night. The Jefferson Day dinner to which Gov. Johnson was invited will not be given until the night of April 13, and it is understood that Gov. Johnson will not be able to attend it. However, while here Louisville Democrats will accord him all the courtesy and respect due such a distinguished member of the party.

Catholic Church.

History of the Church of the Immaculate Conception.

Commencing with this issue it is the desire of The Bee to publish the brief history of each church in the city. The different pastors have been asked to assist us in the matter which we hope will be of interest to the readers of our paper and a benefit to the organizations.

About the year 1847, Simon Fegan settled in Hopkins county, and it was at his house that the Holy Sacrifice of the Mass was celebrated for the first time in Hopkins county by the well-known pioneer priest of Western Kentucky, the Rev. E. J. Durbin, whose mission extended from near Vincennes, Ind., to Nashville, Tenn. For twenty-five years Father Durbin offered the Holy Sacrifice of the Mass at Simon Fegan's house once a year. In the sixties Father Dunn, who was then Father Durbin's faithful assistant, offered the Holy Sacrifice of the Mass at a farm house which stood near the present Earlington railroad depot.

The railroad from Henderson to Guthrie was then being constructed and Father Dunn said Mass for those who were building it.

In 1871, Father Jenkins, at present pastor of New Hope, Ky., and at that time pastor of Henderson, offered the Holy Sacrifice of the Mass for a few of those who had then begun to work in the mines.

On December 11th, 1872, the congregation of Earlington, under the title of the Immaculate Conception, was formally established by the Right Rev. Bishop McCloskey, and the Rev. Alphonsus Maria Coenan appointed as its first pastor.

The first church, a frame building, 60 x 25, was finished and dedicated the last Sunday of August, 1873.

Simon Fegan quarried the rock and built the foundation of that first church free of charge. The St. Bernard Coal Co., donated the three lots on which the church was built.

In May, 1875, the Rev. Father Coenan resigned as pastor of Henderson and took up his residence at Earlington.

The following September, a Parochial School was opened with four Sisters of Loretto for teachers, the auditorium of the church was used for the purpose, being separated from the sanctuary by folding doors. The

Sisters of Loretto taught until June, 1890, when a change was made, and the Sisters of Charity of Nazareth took charge September, 1890, and are still teaching. In 1882, a true benefactor, Bernard N. Farren, Esq., of Philadelphia, built the present two-story brick school house, still in use. He has always taken a pride in the Parish of Earlington.

On October 10th, 1886, the Rt. Rev. Bishop McCloskey laid the corner stone of the new church, and one truly to be proud of. Father Dunn preached on the occasion. Many of the Rev. Clergy were present and took part in the ceremonies. There were also present B. N. Farren, Esq., who so generously donated the brick and slate for the building, and Mr. J. E. Atkinson, president of the St. Bernard Mining Co., who was so kind and good, as to donate an entire square of ground, that is, eight town lots for the new building, and who, to the present day, can be depended on as a true friend. Another benefactor donated \$3,000, for the completion of the building, the congregation furnished the balance, amounting to about \$2,500, and the new church was finished and solemnly consecrated by the Rt. Rev. Bishop McCloskey on May 31, 1890, it being entirely free from debt.

In October, 1888, the town of Earlington, at their own expense, placed in the tower a very fine clock for the benefit of the town, being allowed the use of the bells for the striking of the quarters and the hours.

The three bells, the Stations of the Cross and the pipe organ, were donated by some reverend gentleman residing at Antwerp, Belgium.

The number of Catholics in Earlington and the other missions belonging to the Parish, is about 450 souls.

The pastors who have been and are in charge of the church of the Immaculate Conception, are as follows: The Rev. Father Coenan, founder of the congregation of the Immaculate Conception May 29th, 1875, and who for thirty long years labored zealously for God and souls, never tiring of doing good and promoting the honor of God. He departed this life February 13, 1905.

The Rev. Father Welch, pastor at Hopkinsville, kindly attended the Parish until the appointment of the Rev. Father O'Connor who, on July 22nd, 1905, took charge as pastor, remaining until March 28, 1906, when he was made pastor of St. Michael's church, Louisville, Ky.

On April 6th, 1905, the Rev. J. P. McFarland, the present pastor, took up his duties as pastor of the church of the Immaculate Conception.

CHARGED WITH FORGING CHECK.

Stewart McMullen Of Sebree Arrested On Train Near Henderson.

MIXED IN MURDER CASE WHEN HE WAS A BOY.

Stewart McMullen, of Sebree, Ky., who has figured in a dozen or more escapades in nearly all the states in the middle west, and is now wanted in Hot Springs, Ark., on a charge of forgery, was arrested Friday night on the Dixie Flyer, the fast north-bound Louisville and Nashville train, by Deputy Sheriff Fred Eblen, of Henderson, and Marshal Cy Biggs, of Sebree, officiated in the arrest, and the prisoner was taken to Henderson for safe keeping until the authorities at Hot Springs could be notified.

A little more than a year ago, McMullen was accused of having obtained money from Eugene Speirer, then of Henderson on a forged check. He also obtained merchandise of Albert Lieber & Company in a like manner. About ten years ago several boys about 15 years of age killed, an old umbrella mender at Sebree and covered the body with leaves with a hope of concealing the crime. Young McMullen was charged with complicity in the crime, but was acquitted in the Webster circuit court.

The prisoner's relatives at Sebree stand well in that community.

Last Entertainment of Lyceum Course.

The last one of the entertainments given this season for the benefit of the public school was a concert at Temple Theatre Saturday evening, which was witnessed by a few of Earlington's cultured people. Principal Maxey kindly allowed the children in the primary grades to attend free of charge.

These high-class entertainers were three musicians and a reader, each of rare talent in their line. From the first number to the last the audience was highly entertained as the continued applause indicated. It is argued that this was the best of the Lyceum course. The house should have been filled with parents interested in the welfare of the school. To Principal R. Y. Maxey is due the credit for these five delightful entertainments secured by him. The few who cooperated with him, heartily appreciate his efforts made to up-build the school, and at the same time furnish these pleasant, high-toned, cultured entertainments.

Killed by Picking Up a Live Wire.

Isaac O. Lewis, a prominent citizen, of near Bowling Green, 65 years of age, was instantly killed Saturday afternoon by picking up a live wire. During a storm an electric light wire which runs out the Nashville pike to some of the suburban residences was blown down. Mr. Lewis accompanied by several of his friends was walking along the pike in front of his home, which is located at the city limits, and explaining the break to them. He took hold of the dead end of the wire and afterwards picked up the live end, receiving a shock which caused his instant death.

JUDGE WELLS IS DETERMINED.

Fearless Official Has Called Troops Into Calloway And Speaks Out.

WILL DEFEND HELPLESS FARMERS. EVEN AT THE COST OF HIS LIFE.

Paducah, Ky., April 4.—For the first time in several nights Calloway county was peaceable last night, not a single case of night riding being reported. The quiet was due to the presence of soldiers in Murray and the outlying county.

Lieut. Wilburn refuses to state how he will work his soldiers, but from an authentic source it is learned that a detachment will be sent out each night to patrol the county and watch for night riders, a squad being left at Murray to defend the town. The first patrol duty was inaugurated last night.

The night riders are not expected to take any chances with the soldiers and have ceased operation. Troops were requested principally to stop the cruel work of this lawless band in the county.

County Judge J. G. Wells said this morning that he had been misrepresented and intentionally so by some people by the statement that he had called for troops to protect the trust's re-handling house at Murray. He said that he wished The Times would state that he called the troops for the protection of the farmers, and continued:

"I called the soldiers to stop this whipping of isolated farmers; which was taking place almost nightly. The whippings were severe and some of the victims were hurt. I know what I am talking about, for I have seen them."

"Farmers were called from their beds and beaten with heavy branches until they bled. You can say that so far as it is in my power I am going to stop this kind of treatment, even if it cost me my life to do it. Lies have been sent out of here about me, and some people have censured me for requesting troops, but the county authorities were unable to cope with the situation."

"Threats have been sent me by the night riders. They have warned me that they would kill me, and they may do it, but I am going to give the farmers protection at any cost."

Men who are intimately acquainted with Judge Wells say that he means every word he speaks. He has been the county Judge of Calloway for several terms, and this is the first time his nerve has ever been tested in an official capacity. He realizes that his act may kill his political aspirations, but they are a secondary matter.

FIVE LYON COUNTY MEN CHARGED WITH NIGHT RIDING

Said to Have Stomped Homes of Negro and Posted Warning Notes.

Eddyville, Ky., April 4.—County Judge Crumbaugh has issued warrants against five young men who are charged with going to the homes of Jim Carter and John Garnett, both colored, posting notices warning them to leave and storming their cabins. The warrants are against Robert Peek, Thomas Henry, John Lee, Charles Doon and Jimmy Heuser. The warrants are in the hands of the Sheriff.

A QUITTER.

He didn't like his job a bit,
He didn't like his boss.
He said if he should o'er be fired
It wouldn't be his loss.
He grumbled o'er his wages till
It filtered through his mind
That life was far from good to him,
The world, forsooth, unkind.
He watched the clock hands moving—when
He got a chance to shirk
He soldiered with vengeance while
Another did his work.
The years went by, he didn't rise,
His pay was still the same.
And do you know, that fool declared
That he was not to blame?

CATTLE ARE VERY SCARCE.

Hopkins County Has Lost Much in Both Number and Quality.

HORSES ARE IMPROVING AND OWNERS TAKE PRIDE IN THEM.

A Madisonville gentleman who is interested in farming, and is well informed on the conditions in Hopkins county, says that cattle in the county are very scarce, beef cattle or milch cows, and that there are very few good cattle to be found. The quality of the cattle as well as the quantity, he says, has very much depreciated as compared with a few years ago. The cause he attributes to the low price for cattle and even the herds that formerly grazed in Pond River country are decimated. It is very hard to buy a milch cow now, whereas formerly it has been very easy to get cows at any time. Our farmers have almost quit raising cattle. On the other hand he says that the quality of horses owned and raised in the county is steadily improving and believes that within a reasonable time we shall have as good stock as perhaps any other section of the country. People, many of them, take a pride in the kind of horses they own and the effort to improve the stock is widespread. The gentlemen quoted believes that there should be established in the county large sales stables for horses and mules, making a fixed market in which stock of any desired character could be bought or sold. The mule industry is another thing that is given little attention in Hopkins county, and is an industry that could be as largely and successfully developed here as it is in Hardin and other counties, where it constitutes a very important part of the county's resources and brings much ready cash into circulation.

It is a well known fact that the farm products of Hopkins county do not in any line nearly supply the home demand of our various industrial towns and of the people of the county generally. There is much room for improvement of and increase in farm products of all kinds, for which good prices can always be had at home.

ADDRESS BY TAFT'S FRIENDS.

Committee Delegated by Recent Meeting of Kentucky Supporters.

CLAIMS BRIEFLY AND WITH DIGNITY SET FOURTH.

Louisville, Ky., April 8th.—The candidacy of William Howard Taft, Secretary of War, for the nomination for the Presidency of the United States, is formally drawn to the attention of the people of Kentucky by an address, issued over the signature of a number of leading Republicans. The address is brief and pointed, dilating but little upon the record of the Secretary, which it assumes is familiar to the general public. It marks the culmination of the quiet, but vigorous campaign that has been carried in his behalf for some months in Kentucky.

The address in full follows: "Without malice, and without detraction, from the claims of any other candidate, we submit, confidently the name of William Howard Taft, of Ohio, to the Republican voters of Kentucky for their consideration for the Republican nomination for President.

"He is available. His past is an open book. There is no smirch upon its leaves. There is no suspicion of his motives. Men may question the wisdom of his judgment or his policy. No man questions his integrity. He was a great Judge. He was and is a great executive. It would be tedious to recount his achievements. They are history now.

"The people of this county want corporate regulation, and they are in earnest about it. They want wise and just national regulation of the public utilities, which have become national public servants, to the extent and insofar as they have become national, and the Constitution permitting. To what has been accomplished and attempted in this direction by the present administration under the leadership of Theodore Roosevelt is due, in great measure, to the administration's enormous popularity.

"The people justly expect and insistently demand that this great work shall go forward. Any backward step will be disastrous. Wherefore, the nomination must go to someone known to be in accord with the general policies of the present administration.

"More than any man alive William H. Taft is regarded, and justly so, as the exponent of the policies of reform which have been inaugurated, executed or attempted by the administration. Without any demagogism, he has been the wise and consistent friend of labor, and, without in any wise stooping to appeal to race prejudice or passion, he has striven sanely for the uplifting and betterment of the colored race.

"And he is fit for the place. In him great ability is joined to special training and wide experience. He unites splendid lawiership with executive ability of the highest type. He is capable of enormous labor, and knows how to work effectively. He is patient in hearing, wise in council, firm and temperate in execution. He never shirks from a duty because it is unpopular. He never yields a principle for the sake of success. What seems to him his duty that he does without fear or favor. And he possesses those virtues which every man may practice, and without which no man, however high his station, is worthy of respect—the homely virtues of courage, fairness and honesty.

"William H. Taft is both available and fit, and we ask you to

aid in his nomination.

"Signed—Ed Farley, James Breathitt, John Allen Deau, W. H. Jones, A. D. James, John W. Lewis, David W. Fairleigh, Morris B. Belknap, Richard P. Ernst, John T. Shelby, Daniel W. Lindsey, A. R. Burnham, George W. Welsh, V. V. Adkins, Ed O. O'Rear, John W. Langley, A. T. Siler, W. W. Jones, J. R. Hindman, Don C. Edwards."

At a recent conference held in Louisville by Republicans from all the congressional districts of the State the members of the foregoing address were designated as a committee to prepare an address to the Republicans of Kentucky, presenting the reasons in favor of Judge William H. Taft for the Republican Presidential nomination. The signers are representative men from each of the districts.

The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, gerofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distressing in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best remedy known to medical science for the cure of the above troubles is Dr. Pierce's Golden Medical Discovery. It has been sold for over twenty years, and its efficacy is proven by the fact that it has been sold in the most remote and barbarous parts of the world. It is absolutely true that it will be readily proven to your satisfaction if you will mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

Col. Robert Wood left Monday for a visit to friends in Indiana where he will probably remain for a month. He denies the allegations that he is fleeing from the night riders and declares he has not farmed any for years. He is an old soldier anyhow and perhaps don't know how to run.

The hat carnival at the Auditorium rink last Friday night was a successful affair. The first prize was awarded to Mrs. O. A. Davidson and she was given a table and a set of chairs. Miss Ruth Wyatt was given a pair of kid gloves as a winner of second prize; Miss Pansy Myers received a pair of slippers as the third winner, and Mrs. Iley Wyatt was the fourth successful fortunate person and was presented with a pair of skates. A large crowd was present and it was one of the most enjoyable events ever given at the rink.

MINING NOTES.

Fifty Ohio capitalists were recently in Uniontown, Ky., to look after their coal mining interests. These men are interested in building a new coal tippie on the river there to be connected by rail with the local mines as well as those at Bakers, Waverly and possibly Morgansfield. It is learned from good authority that the scheme of shipping Kentucky coal to the Gulf of Mexico by Ohio river, which was originated first by the late W. P. D. Bush, of Louisville, is about to be realized. All the rights for the W. P. D. Bush Coal and Mining Company's 4,000 acres of coal lands at Uniontown have been secured by interests represented by Dr. Fred Reis. In the near future Dr. Reis said that the capitalists represented by himself will incorporate for \$300,000. New machinery will be installed in the mines so that the veins can be properly worked. The mine is located on the Ohio river and the Illinois Central Railroad, giving it unexcelled shipping facilities. Dr. Reis and other capitalists were at The Seelbach recently arranging details for the formation of the company.

George L. Carter, president of the South & Western railroad, has just closed a deal for an immense tract of coal and timber property in eastern Kentucky, including ninety-two per cent of the total in two counties. The property was purchased in his own right, and some 30,000 acres in fee simple. The consideration is not known.

The best coal on the Pacific coast south of Washington is unique as to its geologic age. Early in Tertiary time, ages after the carboniferous deposits that formed the great coal beds of the eastern and interior states had been laid down, Stone canyon, in the southeastern corner of Monterey county, California, was the site of a marshy tract in which were gathered the materials that are now hardened into an extensive bed of bituminous coal. The bed is about 15 feet thick and has been traced for several miles. It is mined at two openings, but no shipments have yet been made, owing to lack of railroad connections. The analyses show that it is a good gas making coal, of excellent heating power. It contains little moisture, but considerable sulphur, and as the coal is hard and does not slake it should stand transportation well.

Washing the Clam.

On account of the great demand for the steam sizes of coal throughout the eastern section of the country the washeries in the anthracite field are now working as steadily as the big collieries and getting their owners proportionate returns. Nearly every coal company has one or more washeries at work. The washeries prepare for market the huge mountains of culm that were considered useless in the early days of mining. Now they are veritable gold mines. They are becoming more valuable as the virgin coal gets scarcer.

There Was Money in Coal.

Webb Brothers, merchants at Dawnsville, Texas, received a carload of Indian Territory coal shipped from the Lacy Coal Yards in Waco over the San Antonio and Arkansas Pass Railroad, and when the coal was removed from the car a canvas bag containing 100 silver dollars was found, the money having been hidden beneath the coal in one corner of the car. The Dawnsville merchants informed the Waco coal dealer by telephone and the case is being investigated by Sheriff Tilley and the police. The theory is that the money was stolen and hidden beneath the coal by the thief.

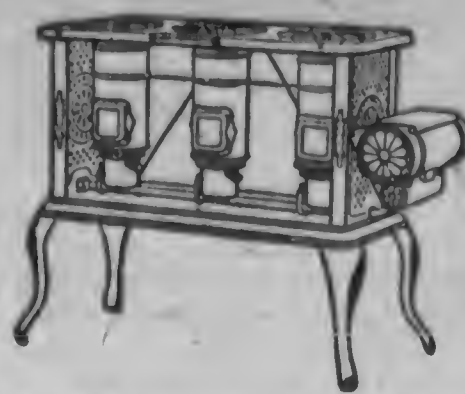

M. Cain, of Morton's Gap, was a visitor in the city Monday.

Chief R. E. Whiffler and his efficient corps of engineers left Monday for Providence where they will remain a week doing considerable work at the Shamrock Mines at that place.

Henry Wyatt took charge of the No. 11 mine Monday morning as foreman, vice W. D. Crenshaw, who was transferred to the Fox Run mine at St. Charles.

The Louisville papers say that prospects for a settlement between union miners and operators of Western Kentucky are not nearly so bright as they were ten days ago, when the joint conference adjourned temporarily. The trouble is over the "shot-firers" provision in the law recently enacted. The miners want

You Will Need an Oil Stove

When warm days and the kitchen fire make cooking a burden—then is the time to try a New Perfection Wick Blue Flame Oil Cook-Stove.

Marvelous how this stove does away with kitchen discomforts—how cool it keeps the room in comparison with conditions when the coal

fire was burning. The quick concentrated heat of the

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

goes directly to boil the kettle or bake the bread, and none is diffused about the room to overheat it. Thus using the "New Perfection" is real kitchen comfort. Made in three sizes and fully warranted. If not with your dealer, write our nearest agency.

the operators to pay the wages of "shot-firers" and the operators hold that the miners should be out this expense, arguing that the miner should do the shooting and that where their duties are lightened by the employment of "Shot-firers" they should bear this cost, under the system in vogue in union mines.

SPARE THE BIRDS.

Attention has been called by a friend of the feathered tribe of little songsters that are beginning to make the mornings of early spring vocal with their sweet notes, to the fact that many of these sweet bird neighbors are being wantonly slaughtered by embryo marksmen, who wander about with target rifles to prove their prowess. We would like to get the ear of each one of these offenders against birdkind long enough to persuade each one of them to desist from their cruel, senseless and unlawful practice. Every time a song or insectivorous bird is killed or caged in Kentucky the law is broken. It is well to obey the law in little things as well as in great, and parents can do their children no greater service than to instill into them a genuine reverence for the law as an abstract proposition. A generation or so of such training would work wonders in Kentucky. Let us begin by teaching the boys, young and old, that there is a law to prevent the slaughter of birds, and that law ought to be respected.

Spare the birds.

DEMOCRATIC FILIBUSTER.

Minority Leader Williams Produced Much Merriment in Congress.

Washington, April 6.—However the people of the country at large may regard the Democratic filibuster that was inaugurated in the House last week, it has certainly furnished not a little amusement to many members of both parties and to the thousands of visitors who at present throng the Capital City and occupy all available space in the numerous hotels and more numerous boarding houses. Just at this season Washington always is the mecca for high school and seminary junkets, but this year these excursions have been especially frequent and extended, and every incoming train seems to bring another party. The White House and the Capitol usually for the magnetic centers, leaving the many other points of interest to mere "side trips." But the lively skirmishing that has been taking place in the House during the last week or so has served to attract and hold nearly all—that is, all who could gain admission to the crowded galleries, while the others have stood in line in the corridors and wait their turn. When Minority Leader Williams compared Congressman Payne, the Republican floor leader, with Honest John Falstaff the other day, the members on both sides were much affected while the galleries indulged in uproarious laughter, but the witty Mississippian literally "brought down the house" when he resorted to rhyme and declared that the action of the Republicans in desiring to put off all constructive legislation until after the Presidential election reminded him of a verse his small son had found at school and brought home:

"When I asked my girl to marry me, she said
'Go to Father.'
She knew that I knew her father was dead;
She knew that I knew what a

THE ARMY OUT OF WORK

Result of a Canvass of the Country Recently Made.

Figures Show That there are a Quarter of Million Now Unemployed in New York.

THE ESTIMATE IN CHICAGO IN NINETY THOUSAND.

In a canvass of the country to ascertain this number of unemployed men dispatches have been received from many industrial centers with reports of conditions and from these it is estimated that more than one million men are minus of jobs. The reports indicate more than 600,000 unemployed in the chief cities and nearly 800,000 in the States outside the cities.

Following are estimates. In the cities—

Birmingham	14,000
Little Rock	1,200
Denver	10,000
Wilmington	1,000
Indianapolis	7,700
Lewistown	1,200
Detroit	15,000
Butte	4,450
San Francisco	25,000
Bridgeport	5,500
Chicago	90,000
Des Moines	500
Boston	40,000
St. Louis	30,000
Goldfield	200
Newark	5,000
New York	250,000
Providence	8,677
Montpelier	5,000
Omaha	4,000
Concord	1,500
Trenton	5,000
Philadelphia	100,000
Knoxville	4,500
Wheeling	6,000
Total	811,827

No definite figures could be obtained from some States, but from the best information the number of idle in the States outside the big cities are:

Alabama	20,000
Colorado	18,000
Delaware	11,000
Iowa	2,000
Maine	12,000
Missouri	45,000
Nebraska	9,000
California	74,000
Connecticut	30,000
Illinois	200,000
Kansas	10,000
Massachusetts	25,000
Montana	8,500
New Hampshire	2,500
Rhode Island	18,292
Tennessee	25,000
Texas	3,000
Vermont	5,500
Utah	10,500
Virginia	7,500
West Virginia	60,000
Total	598,792

That there are more unemployed men and women in New York City today than at any previous time in many years' past is the belief of union leaders, charity workers and students of social conditions. Estimates of the number out of work vary from 100,000 to 500,000. It is probably that half of the latter number, or 250,000, is about correct.

The following estimate is given by responsible labor leaders:

Carpenters	10,000
Tailors	8,000
Rock men and excavators	8,000
Bricklayers	7,000
Laborers	20,000
Housesmiths	9,000
Asphalt workers	2,000
Painters	7,000
Rock drillers	2,000
Engineers	2,000
Pavers	2,000
Plasterers	2,000
Steamfitters	500
Sheet metal workers	500
Compositors	2,500
Pressmen	1,000
Miscellaneous trades	20,000
Unorganized labor	145,000
Total	350,000

Secretary Donnelly, of the general abatement board of the New York building trades spoke with pride when commenting upon the almost entire absence of destitution among union men despite the fact that at least half of them are out of work at present.

WHAT THE KIDNEYS DO.

Their Unceasing Work Keep us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pains in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Henry Clements, living on Robinson St., Earlinton, Ky., says: "Doan's Kidney Pills saved my wife's life, and I am glad to recommend them to others. She had pains in her bladder whenever she voided the kidney secretions, and her back became so lame and sore that she could scarcely stoop or pick up anything from the floor. She had become greatly reduced in weight, and had little strength or energy to perform her household duties. Hearing Doan's Kidney pills highly recommended she decided to give them a trial, and procured a box at the St. Bernard Mining Co., Incorporated, Drug Department. The use of this box did her so much good that she continued their use until rid of every sign of kidney trouble. She is now better than she has been for a number of years and I do not hesitate to give Doan's Kidney Pills my highest endorsement."

Locomotive Blasts

Operator O. C. Hoffman is visiting in the city.

Operator O. R. Tachery is filling the third truck at the yard office.

Conductor Fred Ashby has again resumed work after several days illness.

J. L. Stout, claim agent for the Henderson division, spent Friday in the city.

Conductor Dick Meacham, who has been confined with the mumps, is at work again.

Joe Oliver, an employ of the yard force for the L. & N. at Howell, was in the city Sunday.

Brakman Earheart is at his home in Nashville spending his vacation and will not return until May 1.

All the boys had better look out for the office door at the passenger station is now charged with electricity.

Mr. T. H. Glascock T. F. A. for the C. E. & I. R. R. spent Friday in the city doing business for that road.

Ben Lacy, one of our popular local conductors from Hopkinsville, spent Sunday in the city with friends.

Joe Wolf, of Nashville, Tenn., has accepted a position as clerk in the Train Masters office, vice Eli Scott resigned.

Conductor Sam Lyon has returned from a trip through the central part of the State and Cincinnati, O., and is again on duty.

Engineer Will Rowe is said to be the smoothest and fastest engineer on the Henderson Division. He has made several good runs in the past, but last Friday

night on train No. 93 between Henderson and Earlinton, he probably made the best record that has ever been made on the Henderson Division.

Jack Armstrong, who made many friends here while with the L. & N. civil engineering party, is now working at Vincemont, Ala., and will pay friends here a visit soon.

Harry Bramwell is off his run this week. Harry is preparing to move to Morganfield, where the people of that city will welcome him with open arms.

Agent Ashby had quite a good deal of fun last week by having an elective current put on the iron door knob at his office and the loafers who have been walking in when they pleased were very much surprised and shocked.

Conductor W. W. Davis, better known as "Dad," who has been in the service of the L. & N. R. R. Co., for the past 28 years, left for his home in Louisville on train No. 93, Wednesday April 1. All railroad boys regret very much to learn of "Dad's" misfortune and regret to see him leave very much and wish him a great success in any undertaking he may undertake.

Good Judgement
Is the essential characteristic of men and women. Invaluable to good business men and necessary to housewives. A woman shows good judgement when she buys White's Cream Vermifuge for baby. New Kindergarten Method.
Kindergarten methods of educating young children have always been a pronounced success. Recently a new phase of the system was invented and put into effect by a Belgian lady, Mme. Pecher. In the Oklahoma and Tennessee contests only Taft delegates are involved.
All Missouri contests are in the city of St. Louis.

Columbus, O., April 6.—When reports had been received at Taft national headquarters here of the delegates selected to the national Republican convention including Friday, the following statement was issued.

"In the past week only six delegates were selected outside 'favorite son' states: West Virginia entered the list of states without candidates of their own in which action has been taken when the third district convention at Hinton indorsed Secretary Taft and unanimously instructed two delegates for him. Of the six delegates elected in 'open' territory during the week four were instructed for Secretary Taft and two from Porto Rico, were uninstructed. In addition, two Taft instructed delegates were elected in the First Illinois (Chicago) district. Virginia and Ohio contributed four more instructed Taft delegates.

"Other delegates elected during the week were 18 in Illinois instructed for speaker Cannon; the four delegates at-large from Indiana, instructed from Vice President Fairbanks, and four from the Buffalo, New York, districts, instructed for Governor Hughes. The last are the first delegates selected from New York.
"Of the 300 delegates now elected, 202 or 67 per cent. are instructed for Secretary Taft. Thirty of the remaining delegates are uninstructed, but fully one-third of this number have made personal Taft declarations. Sixty-eight delegates are now instructed for other candidates, as follows: Vice President Fairbanks, the Indiana delegation of 30; Speaker Cannon, 34 of the

49 Illinois delegations now elected; Governor Hughes, the four New York delegates now elected. "There are now 42 contests, in 16 of which only Taft delegates are involved."

Boston, Mass., April 6.—A telegram was sent to Mr. A. I. Vorys, at Columbus, Ohio, the Taft national campaign manager, assuring him that at least 23 of the delegates were certainly for Taft.

"This overwhelming Taft victory in Massachusetts is generally conceded by New England friends of the secretary of war as indicative of public sentiment. In the entire northeastern group of states they row

feel confident that Taft will have all the New England votes claimed for him by his friends in this section. With the west and south practically solid for Taft and the middle states without favorite sons, conceded to him only the east and New England can be classed as doubtful. Since New England has spoken through Massachusetts the supporter of Secretary Taft are more confident than ever that he will be overwhelmingly nominated on the first ballot.

That languid, lifeless feeling that comes with spring and early summer, can be quickly changed to a feeling of buoyancy and energy by the judicious use of Dr. Shoop's Restorative. The Restorative is a genuine tonic to tired, run down nerves and but a few doses is needed to satisfy the user that tried Dr. Shoop's restorative is actually reaching that tired spot. The indoor life of winter nearly always leads to sluggish bowels, and to sluggish circulation in general. The customary lack of experience and outdoor air ties up the liver, stagnates the kidneys, and oft-times weakens the heart's action. Use Dr. Shoop's Restorative a few weeks and all will be changed. A few days test will tell you that you are using the right remedy. You will easily and surely note the change from day to day.

I found out that New Discovery is the best remedy for coughs and lung disease in all the world." Sold under guarantee at all leading druggists. 50c and \$1. Trial bottle free.

Rheumatism

I have found a tried and tested cure for Rheumatism. Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.
In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many cases of Rheumatism; but now, at last, I can finally cure all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

LEAK IN NAVY DEPARTMENT

BOAT PROBE IS FORGOTTEN IN ADMISSIONS MADE BY WITNESS.

RECEIVED PRIVATE REPORTS

Representative of Lake Torpedo Boat Co. Is Put Through Most Searching Examination by the Committee.

Washington, April 8.—The navy department and not the Electric Boat Co. was virtually under investigation Tuesday by the special house committee inquiring into the charges pending against that company by Representative Lilley. Questions as to whether the company had authorized illegitimate means to influence legislation in its favor was forgotten in the admissions made by a witness to the effect that he had secured extracts of reports made to the navy department supposed to be confidential.

The witness was Robert G. Skerrett of New York, formerly employed in the navy department and at one time the European representative of the Lake Torpedo Boat Co. He stated frankly that while in the employ of the Lake company he received anonymously extracts from reports made to the navy department and that he used these extracts in technical articles prepared for publication in magazines.

Used in Magazine Articles.

Questioned as to their sources, he replied that he did not know from whom they came and that he had accepted them as correct and used them in his articles.

Mr. Skerrett's sensational testimony came when he was asked by Chairman Boutwell if he did not think his action in using information of the government regarded as secret was highly dishonorable. His reply was: "No, I think it indiscreet." It is the evident intention of the committee to follow up this line of evidence and if possible discover the leak in the navy department.

It is doubtful if a witness before the committee was ever put through a more searching examination than Mr. Skerrett.

The first report to which reference was made was one prepared by Lieut. Nelson, U. S. N., who conducted a series of trials of the Holland boat at Narragansett in 1904.

While abroad Mr. Skerrett wrote an article on submarines, in which he quoted from Lieut. Nelson's report.

"Where did you get that report?" asked Mr. Stephens.

"I do not remember," answered the witness. "Before I left Washington I went to my friends in the navy department and said to them: 'If there is anything you can give out at any time of interest, send it along.'"

They knew that I was writing on naval topics."

Extracts from Various Reports.

Mr. Skerrett said that from time to time, while he was in Berlin, he received typewritten extracts from various naval reports. These extracts came to him in plain envelopes and there was no writing on them to indicate who had sent them. He had no idea from whom they had come. They were forwarded to him from Washington, through the office of the Lake company in Bridgeport.

An article the witness had written concerning certain details of the Holland boat was next taken up.

Mr. Littleton, through the committee, pressed the witness as to where he got his information.

Mr. Skerrett said it had been given him by a foreign officer. Pressed by Mr. Stephens to give the name of this official, Mr. Skerrett said that his memory was faulty in stating that he had met him in London. As a matter of fact he had received the information while conversing with naval officers at The Hague. He said that he was there in the interest of the Lake Boat Co. and, while discussing submarines with the general constructor of the Dutch navy, whose name he did not remember, and with Lieut. Commander Roudin and Lieut. Koster, the information was divulged.

POPULISTS PICK WATSON

GEORGIA LEADER CHOICE OF POPULISTS IN CONVENTION.

WILLIAMS FOR VICE-PRESIDENT

Two Delegations Bolt Just Before the Nominations Are Made—Turnout Before the Scene.

St. Louis, April 5.—Thomas E. Watson of Thomson, Ga., was nominated unanimously for the presidency by the People's party in session at the Olympic theater Friday.

Samuel W. Williams of Indiana was nominated in the same manner for the vice presidency. Jay W. Forrest of Albany, N. Y., placed Mr. Watson's name before the convention.

Although J. R. Norman of Albion, La., presented the name of L. H. Weller of Nashville, La., as a candidate for presidential nomination, Norman voted for Watson. His reason for suggesting Weller's name, he said, was as a mark of esteem of Weller and a compliment to the Iowa delegation.

"Pops" of Tar States Bolt.

When the Populist convention voted late Friday to nominate candidates for the presidency and vice presidency the Nebraska and Minnesota delegations bolted and left the Olympic theater, in which the convention was being held.

A motion had been made that the convention proceed to make nominations, when W. B. Jones moved that action be postponed until July 15, after the conventions of the two other parties.

He was interrupted by cries of "Put him out," "Go to Denver," "Call the police," and cat calls and hisses, but he talked them down and said if the opposition hoped to yell him down they had mistaken their man.

Jones talked at length and was followed by Rev. Thomas Wadsworth of Indiana, who opposed postponement. T. H. Tibbles, nominee for vice president in 1904, followed, urging postponement, and reading a letter from Thomas E. Watson.

The convention then voted to proceed with nominations, and when the move carried T. J. Meghan and others of the Minnesota delegation reached for their coats and, followed by the Nebraskans, left the hall.

LABOR STRIKES IN ROME.

Pierpont Morgan Does Not Venture from Hotel by Request of Police.

Rome, April 5.—The city Friday bore the aspect of a holiday as a result of a general strike of workmen inaugurated as a protest against the killing by the troops on Thursday of three rioters and the wounding of 15 others.

No serious incidents occurred during the day. Tourists experienced discomfort through a lack of cabs and the cessation of street car traffic. Persons possessing automobiles risked being struck by stones when their cars passed through the neighborhood where strikers were gathered.

J. Pierpont Morgan was requested by the auto-rites not to leave his hotel and accepted the warning.

Eight hundred tourists who were annoyed by the strikers left the city.

An especial watch was kept near the vatican in order to suppress any disturbances that might break out.

New Policeman Shot.

Chicago, April 6.—John Walsh, a probationary patrolman of the Chicago police department, was shot and probably fatally wounded by one of several men whom he was endeavoring to arrest at Sheffield and Clybourne avenues, Sunday night. The men were fighting among themselves when Walsh interfered. The assailant escaped and it is doubtful if his companions are among the many suspects who have been arrested by the police. Walsh was appointed a policeman three weeks ago.

Divorce Epidemic in Family.

Ottumwa, Ia., April 6.—Married life has not gone well with William Carnes and his sons, Samuel and Charles, of this city. All three will appear in divorce proceedings at the April term of the district court, and the father and one son, Samuel, have given up all hope of marital bliss after a second trial.

Four Hurt in Auto Crash.

El Paso, Tex., April 7.—In a head-on collision between two automobiles used to haul passengers from Tobu to Fort Bliss Monday night, four men were injured. Col. Joseph F. Huston, Nineteenth infantry, was badly cut about the head and bruised.

McCreery in Near Death.

Washington, April 7.—Thomas McCreery, the New York horseman, accidentally shot by Congressman J. Thomas Hefflin of Alabama, a few days ago, is in a serious condition. He was operated on for lockjaw Monday as the only hope of saving his life.

American Loses at Chess.

Vienna, March 31.—The feature Monday in the international chess tournament, now in progress in this city, was the defeat of Marshall, the American, at the hands of his countryman, Johnner Schlechter of this city is still in the lead.

Paris Locks Out 150,000.

Paris, April 6.—A gigantic lockout affecting 150,000 masons, bricklayers and allied workmen in the building trades went into effect.

CONGRESSIONAL

Believing that the government could save approximately \$50,000 a year by establishing at the navy yard in Washington its own plant for the manufacture of iron, steel and brass fabrics, Representative Carey (Wis.) introduced a resolution for the building of such a plant, and a bill appropriating \$100,000 toward that end. Mr. Carey's bill limits the cost of the proposed plant to \$425,000.

As an aftermath of the passage Monday of the army appropriation bill, Senator Hale of Maine, chairman of the committee on naval affairs, Tuesday introduced a warning against the increases of the military establishments of the country, saying they were inviting a deficit in the treasury and would serve no useful purpose. Senator Hale moved the reconsideration of the vote by which the army bill was passed and his motion was then laid on the table at his request. Senator Burkett characterized the proceeding as one of bad faith.

The whole of the session of the house Tuesday was devoted to the consideration of the District of Columbia appropriation bill. Two amendments of more or less national interest were adopted, one providing for 75-cent gas for all district establishments and the other requiring that all outside doors to public school buildings shall open outward and that new buildings shall have four exits. An effort to secure the incorporation of a child labor provision applicable to the district failed.

The fortifications appropriation bill was passed by the senate Tuesday, with appropriations of \$12,116,187. As passed by the house, the bill carried an aggregate of \$8,210,611, the senate adding \$3,905,576. Amendments to the bill were made in the senate appropriating \$500,000, on motion of Senator Flint of California, for land and fortifications at Point Fierme, Los Angeles, Cal., and \$100,000 additional on motion of Senator Simmons of North Carolina for the repair of fortifications at Fort Mason of his state.

GREAT NORTHERN CONVICTED.

Judge Holt Fines Railway Co. \$5,000 for Granting Rebates.

New York, April 8.—The Great Northern Railway Co. was Tuesday convicted of granting rebates to the American Sugar Refining Co. before Judge Holt in the United States circuit court and fined \$5,000. The company was charged by the government with giving rebates on sugar shipped from this city to Sioux City, Ia., in 1902.

Counsel for the company gave notice of appeal. The rebating indictments against the Northern Steamship Co. were dismissed. The trial was remarkable for its brevity, lasting only two days.

Before Judge Holt imposed the fine, United States District Attorney Stimson called the court's attention to the fact that there had been no attempted concealment of the alleged crime upon the part of the defendant.

Corey Party in Hard Luck.

Birmingham, Ala., April 8.—President W. E. Corey and several other officers of the United States Steel corporation arrived here Tuesday on a tour of inspection of the properties of the Tennessee Coal, Iron and Railway Co. An automobile containing part of the visitors collided with a buggy containing Mrs. McTyler of Ensle, injuring her severely. Another automobile ran into a telephone pole, but no one was hurt.

Claims Wisconsin for La Follette.

Madison, Wis., April 8.—Late Tuesday night A. T. Rogers, law partner of Senator La Follette, stated that all Wisconsin congressional districts had chosen delegates to the Republican national convention, instructed for Senator La Follette. He declared the proportionate vote was two for La Follette to one for Taft.

Land Fraud Case Dismissed.

Pueblo, Col., April 8.—United States District Attorney Thomas Ward Tuesday dismissed the case against John A. Porter, Joseph A. Coplinger and William N. Bagby, all of Durango, Colo., charged with conspiracy against the United States government in obtaining land in Southern Colorado by fraudulent means. Porter is president of the Porter Fuel Co. Mr. Ward stated that he wanted to make further investigations, as he did not believe that he could secure a conviction with the testimony he had.

Miss Goldman Crosses Border.

Winnipeg, Man., April 8.—Emma Goldman, the anarchist, crossed into American territory Tuesday night without molestation. MANHATTAN'S BATH

Billy Was Enthusiastically in Favor of Icy Plunges

"Now you listen to me," Billy Manhattan is fond of saying to his friends, "let me hand you a bit of advice about this bathing thing. Cut out the warm baths you've been in the habit of taking every morning. Fill the old tub up to the vent notch with the coldest kind of water that will run out of the faucet. Then jump in, swish around for about two minutes with a big cake of soap and a sponge, and then jump out and rub a coarse crash towel over your body. If you don't feel like a brace of fighting cocks, I don't want a cent."

That's the way Mr. Manhattan has been talking for years. He says it doesn't make any difference how many times a young fellow has crooked his elbow the evening before or how many strong cigars he may have burned up in the course of the session—if he'll just tumble into that cold brooklet that flows into every well regulated homo there'll be nothing to it.

"Makes you a new man," he'll tell you. "Freshens you up for the rest of the day. After you get through, you go into the dining-room and the way you mutilate the country sausage and flannel cakes is enough to make your wife give you a hard look. Don't slip me any of that stuff about not being able to eat in the morning. Nothing in it, son, take it from me. Everybody can eat in the morning if they'll play the game I play. Look at me. Don't look exactly like an understudy for the party of the first part in a neurological contract, do I? Betcher life I don't. Em hard as nails and twice as sharp. I'm here to promise you. Got a string of life insurance writers lined up in the ball leading to my fist fighting among themselves to make me a policy. No chance for the company to lose for another hundred years or so. And cold baths have done it, son, cold baths and nothing else."

As a matter of fact, Mr. Manhattan took a cold bath in the autumn of 1905. He got in the tub one morning the hot water tubs weren't working, and after he had got over sputtering and was out on the cork mat again rubbing himself dry, he wasn't at all sure he hadn't enjoyed the novelty. He told himself he'd take a cold bath every morning of his life after that.

He took the plunge next morning and emerged radiantly. He took it for a week or so and began to feature himself in his talk with his friends. He'd allowed there was only one way for a grown-up man to start the day, and that was to souse his person in water that was just one degree removed from the temperature of an ice cream freezer after the cream had been friz. Then along came a cold morning, a proper cold morning, and as Mr. Manhattan regarded the frigid bath it seemed to ancer at him. He shivered and put his hand in the tub. Then he turned back to his shaving. Suddenly he laid aside the razor and reached over to the tub. He switched the faucet. The hot water poured in. "I'll just take the air off this bath," said Manhattan. A week later he was going at the bath as he had gone at it most of his life—a tub filled with warm water in which he could recline and doze and enjoy himself thoroughly. He has never taken a cold bath since.

Every morning after Mr. Manhattan has taken his bath and finished shaving he turns on the same sort of water for Mrs. Manhattan. Only he doesn't tell her it is the same style. "Gee," he says to her. "I don't see how you can go against that game, honest, I don't. It gives me the Willies just to think of soaking my brains in that sort of soup. Why don't you be sporty and take a flop in the cold stuff?"

Mrs. Manhattan tells him that in the first place she doesn't necessarily soak her brain when she takes a bath, and in the second place she isn't so constituted that a cold bath seems good to her.

Mr. Manhattan took the big sleep the other night, after he had put in about ten hours at the two dollar limit, and quit so far to the bad he was disgusted. Mrs. Manhattan, contrary to usual custom, got up first that day, and after she had bathed thoughtfully turned on the cold water for her mate.

When Mr. Manhattan reached the bathroom he shaved abstractedly, thinking all the while of the game of the night previous, and paying no attention to the full tub. This he accepted without question. He had forgotten he has not turned the water on himself, and when he had made his face prescutable he sank leisurely into the water.

Mrs. Manhattan, in alarm over the shriek of agony which her husband emitted, knocked fearfully at the door. Manhattan, now out of the icy plunging and shivering on the mat, scowled so furiously Mrs. Manhattan would have fainted had she been able to see through the door. "What's the matter, dear?" asked the lady, who boasts of Billy's cold bathing propensities almost as much as he does himself.

"A-matter," said Manhattan, his teeth chattering so he could hardly form the words, "you put a t-t-t-t-tuck in the b-bath and I stepped on it."

Mrs. Manhattan pleaded lack of intent and begged forgiveness, which Manhattan reluctantly granted. He hasn't stopped staring himself as a cold-bath performer, but he takes mighty good care to draw the water himself after the crustal and inhuman experience.

DEEP CRACKS FROM ECZEMA

Could Lay Slate-Pencil in One—Hands in Dreadful State—Dis-ease Defied Remedies and Prescriptions—Suffered Seven Years.

FOUND A PERMANENT CURE IN CUTICURA

"I had eczema on my hands for about seven years and during that time I had used several so-called remedies, together with physicians' and druggists' prescriptions. The disease was so bad on my hands that I could lay a slate-pencil in one of the cracks and a rule placed across the hand would not touch the pencil. I used Skin Lotion, and others externally but I did not use any internal remedy, and while some gave partial relief, none relieved as much as did the first box of Cuticura Ointment. I made a purchase of Cuticura Soap and Ointment and my hands were perfectly cured after two boxes of Cuticura Ointment and one cake of soap were used. I now keep them on hand for sunburn, etc., and use Cuticura Soap for shaving. I could write a great deal more in reference to my cure but do not want to take more of your time. William H. Dean, Newark, Del., Mar. 28, 1907."

CHILD SUFFERED With Sores on Legs. Cured in Two Weeks by Cuticura.

"My little daughter suffered with sores on her legs all summer. Her feet were sore, too, and she couldn't wear her shoes. I think she was poisoned by running through weeds but the doctor said it was eczema. I tried several remedies but failed to find a cure. Then I sent for Cuticura Soap and Cuticura Ointment which cured her in two weeks. I find Cuticura the best I ever tried for any kind of sore and I hope I shall never be without it. Mrs. Gertrude Laughlin, Ivydale, W. Va., Apr. 25, 1907."

Complete External and Internal Treatment for Every Humors of Infants, Children, and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.) for the removal of Chronic Coated Pills (25c. per vial of 60) to Purify the Blood. Not a Masterpiece. Guyles married. His bachelor friends rallied him. One, less timid than the rest, blurted out: "Tell us all about the bride. Is she a beauty?" Guyles replied: "All I care to say is this—she is one of God's creations, but she is not His masterpiece."

Pain, anywhere, can be quickly stopped by one of Dr. Sloop's Pink Pain Tablets. Pain always means congestion—unnatural blood pressure. Dr. Sloop's Pink Pain Tablet simply coaxes congested blood away from pain centers. These Tablets—known by druggists as Dr. Sloop's Headache Tablets—simply equalize the blood circulation and then pain always departs in 20 to 25 minutes. May Loss His Mind.
While testing their marksmanship after the manner of William Tell, Elvin Summers, aged eleven years, killed Wallace Franklin, a playmate, age thirteen years, in Crittenden county. The boys had rifles, and Franklin had shot over Summer's head. When the younger boy attempted the feat, the bullet pierced Franklin's brain. It is feared Summers may lose his mind.

Benton Celebration.
Benton, Ky., April 6.—"Tater Day," an ancient Marshall county custom, was the only excitement today. It brought 5,000 people into Benton, and they made merry all day. Among them was Fred Holden, one of the men indicted for night riding and he gave bond at once. Will McAtee, a suspect, has not yet appeared, nor has Dr. Will Champion, of Lyon county, but report was received that Dr. Champion had been arrested at Kuttawa by Marshal McCullom. He is said to have given bond at once and returned to his home. "Tater Day" is a survival of the rural occasion when the farmers would buy potato seed and make ready for the planting season. It falls on county court day and is still observed.

Association Is Growing.
Hopkinsville, Ky., April 6.—Reports from the County Executive Committee of the Planters' Protective Association today were rosy.
The committee held its regular monthly meeting, and it was found that since the association books were opened 300 farmers had come in on probation. Each was required to sign the Equity pledge for one year not to grow crops. All districts reported good progress.

LEARNS THE COMPLEXION OVER NIGHT
Eczema, Pimples, Rash, Itches, Eruptions, Etc., Quickly Eradicated by New Skin Remedy.

Since the discovery of "A. J. M." PRESCRIPTION, the new skin remedy, it has, in its extraordinary accomplishments, exceeded the most sanguine expectations of the dispensers who gave it to the world. It has cured thousands of cases of eczema and eradicated facial and other disfigurements of years' standing. The terrible itching attending eczema is stopped with the first application, giving proof of its curative powers at the very outset.
In less serious skin effectuations, such as Rashes, Blotches, Pimples, Blackheads, Barber Itch, Red Nose, Poison Oak, Poison Ivy, Oozed Feet, results show after a few applications, only a small quantity being required to effect a cure. A muddy, greasy or sallow complexion is noticeable after a single application. Those who use "A. J. M." PRESCRIPTION for these skin troubles can get it in 50 cts. 41 bottles, (the one-dollar size holds three times the amount of the fifty cent size) at all leading drug stores. Write The A. J. Martin Medicine Co., Toledo, Ohio, for free testimonials.

Mrs. Umstead, of Sebree, was in Mortons Gap Monday.

Mr. and Mrs. M. Cain left for Louisville Tuesday to purchase goods for the company store at this place.

Louis Dixon was in Madisonville Friday on business.

Our Sunday School is still growing. We had for the last quarter an average of over 113 per Sunday and our collections for the same period were something over \$20. Come now let us make it an even \$200 by June the first. It can be done if every one will work to this end.

St. Charles.

Manager Frank D. Rash made a business trip to Fox Run Tuesday.

Mr. Clay Woodruff spent Tuesday with friends in the county seat.

Dan Griffin and Bodie Slak, of Earlington, were in the city Tuesday.

Miss Mamie Woodruff, of the county, near here, was in the city Tuesday.

Quite a crowd of our young people spent Friday night at the residence of Frank Fox, near here, and report a pleasant time.

Willie Gilliland, of Dubbs, Miss., is visiting the family of Frank Fox.

Thos. Ashmore and Thos. Logan, of Hisey, spent Monday here with friends.

Ellie Robinson and Will Higginbottom made friends in Earlington a visit Sunday.

Ben Gilliland, credit clerk for the Company here, spent Saturday with Dr. Perry, in Dawson Springs.

Smith Chaney is having his tonorial parlor decorated. The paper hangers and painters finished Tuesday.

The city dads have had the bridge near King's drug store floored with heavy timber, which has been needed for some time.

Dr. D. P. Curry, of Louisville, has accepted a position with the St. Bernard Co., and will move here with his wife in a few days. They are now awaiting the arrival of their household goods.

Miss Leona Sharp and brother Dempsey, of Earlington, spent Monday with friends at Fox Run.

Mr. Arthur Brown, of Earlington, has accepted a position at Fox Run. He is firing the air compressors at the mines.

At a meeting of the council on Monday night Mr. W. E. Umstead was elected as councilman in place of Ruvon McGregor who has moved from town. Mr. Riley Ralmer was elected vice. J. D. Woodruff resigned. This is two good selections.

Mr. J. V. McEuen and wife spent a few days this week in Louisville, where Mr. McEuen has gone to purchase his spring stock of goods.

In all probability, St. Charles will in the near future have a new city judge. Mr. D. D. Woodruff is slated for the place, and we know of no better man or one who will dispense justice with a more fair and impartial hand, being a man of sterling character.

Painters are making quite an improvement in the looks of the town, several houses being paluted.

Rev. R. E. Ragland, pastor of the Methodist church here, but whose home is in Dawson, filled his regular appointment here Sunday morning and night to a large audience.

St. Charles claims to have the best sidewalks of any town of its size in the state. This is due to the strenuous efforts of Geo. Klug, who gave all his time and attention all last summer to the sidewalks and streets, with splendid results.

The social given at the residence of D. D. Woodruff's Monday night, was a very pleasant affair. Those present were, Misses Verna Long, Willie Jenkins, George and May Cook. The gentlemen were Ellie Robinson, Jeff Sisk, Mote Teague, Will Gribble, Owen Slak and Barton Paul. Elegant refreshments were served and all went home at a late hour after a swell evening. The hostesses were Misses Laura, Charlie and Doll Woodruff.

Advice of Noted Authority, Also Gives a Simple Home Prescription.

Now is the time when the doctor gets busy, and the patent medicine manufacturers reap the harvest, unless great care is taken to dress warmly and keep the feet dry. This is the advice of an old eminent authority, who says that rheumatism and kidney trouble weather is here, and also tells what to do in case of an attack.
Get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one or two Compound Karkon, three ounces Compound Syrup Sarsaparilla. Mix by shaking in a bottle and take a teaspoonful after meals and at bedtime.
Just try this simple home made mixture at the first sign of Rheumatism, or if your back aches or you feel that the kidneys are not acting just right. This is said to be a splendid kidney regulator, and almost certain remedy for all forms of Rheumatism, which is caused by uric acid in the blood, which the kidneys fail to filter out. Any one can easily prepare this at home and at small cost.
Druggists in this town and vicinity, when shown the prescription, stated that they can either supply these ingredients, or, if our readers prefer, they will compound the mixture for them.

The sneak thief, who for some time has been enriching himself by stealing clothes from the cabooses at Guthrie, has been caught and will be severely handled by the law. He was formerly a brakeman on this division.

Brakeman Wise had a narrow escape from a horrible death one night last week. He was on top of a train while enroute between here and Evansville and started back to his caboose, not knowing his train had broke in two parts. His lamp went out and he walked off the top of a car and fell to the track below. He landed on his feet and crawled off the track where he was discovered by engineer Draper, who went to his assistance and found him to be unconscious. He was taken to the engine where he soon rallied. He was taken to Slaughter's where the doctor pronounced no bones broken.

Easy Confinement

THE SCOOP THAT FAILED

By Wm. G. Stogler

Mark Everett was one of those reporters who are born, not made. From his earliest copy-carrying days he had made the public world his own, studying its characters and exploring its sinister ways until its atmosphere had become his very breath of life. Its monotonous routine never dulled his enthusiasm; its work, however slavish, never found him conscious of fatigue. When he reported "nothing doing" on a story it meant just that.

Then, one summer, Mark went away for his vacation. It was the first time he had ever done so—just a two-weeks' jaunt on the lakes; but when he came back he was changed. He had seen a new world, and somehow the luster of the old seemed dimmed. Former haunts lost their lure, and he would sit for hours at headquarters, with his feet on the press table, and dream—dream—dream.

Those cold, blue northern waters; the fragrant freshness of the winds; the green-ribbed shores that glistened in the mist-veiled light—how he had enjoyed them all! Such delightful people, too! And she—ah, she was best of all! Her eyes—how beautiful—deeper and bluer than the lakes themselves! Sometimes they were veiled as with the moisture of tears; once or twice he had seen them glow with the sunlight of smiles. She had spoken scarcely a dozen words to him, yet the memory of her had lifted womanhood to loftier heights of reverence, clothing even the commonest police court drab with an inviolability that transformed her from a jest to an object of pity. It had been all too brief—he might never see her again.

Just such a dream it was that the city editor interrupted one afternoon about a month after Mark's return.

"Here's a tip from Detroit on a big story," he snapped over the telephone. "Morgan, the defaulting bank cashier, is believed to be hiding here. Detectives have found a letter mailed to his relatives from a 314 Denman place. Get out on it right away and play it for a big exclusive!"

All of Mark's news facilities leaped to quick responsiveness, and his blood tinged with the love of excitement as he set out upon his quest. And luck was with him, for the proprietress of the boarding house at 314 Denman place was none other than Maude Wicherly, whom he knew as a maker of past police history.

"It won't get you anything to throw me down on this," Mark urged significantly, when she denied having any guest named Morgan. Then she suddenly remembered that a man on the third floor by the name of Stephens had received letters from Detroit—he might be the person sought.

Mark promptly found the door, which, after an interval of knocking, was cautiously opened by a small, pale man with iron gray hair.

"How do you do, Mr. Morgan?" began Mark, curtly, pushing his way into the room.

The man started back in speechless fright, his face blanched before the reporter's accusing gaze. "Who are you?" he finally gasped.

"I'm a detective, come to take you back to Detroit, so you'd better make a clean breast of the whole business."

Mark advanced a step—then stopped as if paralyzed. He closed his eyes convulsively, but when he opened them the vision was still there—not as in his dreams and memories—yet unmistakably she.

A wild fear burned in her widened eyes, as she halted in the doorway of the adjoining room.

"Mr. Everett!" she murmured. Then she dropped quickly on her knees beside the old man, who was now sitting with his face buried in his quivering hands. "What is it, papa?" she asked tremulously.

That same sense of guilt and shame which he had pictured in the other man's heart now overwhelmed Mark. "I—I didn't know he was your father," he faltered. "You told—you see, I thought your name—" He hesitated. Her object helplessness unnerved him. If he could only spare her the humiliation of knowing that he knew.

"I was looking for some one else and—made a mistake," he continued, in firmer, strangely tender tones. "But this is no place for you. You and your father must leave here at once. Let me help you, won't you?" And the girl wearily lifted two impotent little hands to him.

Before the three passed out into the twilight, Mark stepped close to the Wicherly woman. "If you want me to forget some things I know," he whispered, "just forget that these people were ever here."

"What about that Morgan story?" demanded the city editor, anxiously, as Mark lounged slowly up to the desk.

"Nothing doing," he answered, wearily. His gaze was vacant, but in his heart was the vision of her eyes, as he seen them last—growing with the quagmire of smiles.

Unable to figure it out, "You should feel flattered at getting into Mrs. Sharpley's rooming house, Sarah," said Sarah's chum.

"Well, I have been wondering. This is what Mrs. Sharpley said to me when I went to look at rooms: 'You know this is a man's rooming house. I do not take ladies, but I will take you.' Now, if she did not take ladies, why would she take me? I cannot figure it out, can you?"

Notice.

Notice is hereby given that the City Council of the City of Earlington, will through its City Clerk, at North-west corner of Main and R. R. streets in the City of Earlington, between the hours of ten and eleven o'clock a. m., on the 4th day of April, 1908, offer for sale at public outcry to the highest and best bidder, a franchise to continue for the period of twenty years, to erect, maintain and operate a telephone system in said city, and along and over the streets and alleys thereof; the sale will be made on the terms, and embracing the conditions recited in an ordinance passed by the City Council of the City of Earlington, March 2nd, 1906.

The purchaser whose bid may be accepted, and to whom the franchise may be awarded shall pay the amount of such bid in cash, or by duly certified check to the Treasurer of the city, within thirty days after such franchise shall have been awarded.

The said City Clerk will report in writing to the City Council at a meeting thereof to be held on the 6th day of April, 1908, each and all the bids that he may receive of his offer to sell at public outcry to the highest and best bidder.

It is understood, however, that the City Council reserves the right to reject any and all bids that may be made at the time the City Clerk is offering same.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional impurity. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from two drops to a teaspoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars to any case it fails to cure.
